## CERTIFICATES

RCBF #SSSP2021 Development Hackathon 3rd Place team

Jan 2022

Issued by IIE Rosebank college – Feb 2022

I was honored to have received this certificate for achieving third place in the Software Development Hackathon.

throughout the duration of the Hackathon these are the skills i utilized:

- Project Management – Managing the application and keeping to a schedule of 2 months
- User interface – The front end development of the software was designed entirely by C# using asp.net framework
- user experience – I paid careful attention to the detailing of the the software including the color coordination, font sizes and spacing to enforce a great user experience.
- Database development – To store the user's details and every other required information which the user inputs. I used Microsoft SQL server to create and manage the database.
- Software development – to develop the software I used visual studio 2019. The whole application's life cycle was developed in C#
- Presentation – To sell the application, I used PowerPoint. I made a presentation in which i used to sell the application to the panel audience.
